EDUCATION

Charotar University of Science & Technology

Bachelor of Technology (B.Tech) in Information Technology (CGPA: 9.04)

Anand, Gujarat

October 2021 – May 2025

St. Xavier's High School

Higher Secondary Certificate (88.8%)

Kutch, Gujarat

August 2021

TECHNICAL SKILLS

Languages: C++, JavaScript, Typescript, SQL, Python, Java

Technologies: Node.js, Express.js, REST APIs, MongoDB, PostgreSQL, Playwright, Cucumber, BDD, Prisma ORM

Tools: Postman, Git, GitHub, VS Code, GitHub Actions

Core Competencies: Data Structures & Algorithms, DBMS

EXPERIENCE

Zeus Learning

SDE 1

Mumbai

June 2025 – Current

- Developed 40+ end-to-end automation workflows using Playwright (TypeScript) as part of the McGraw-Hill automation team, significantly improving test coverage.
- Implemented 30+ BDD test scenarios using Playwright with Cucumber (Gherkin), ensuring alignment between business requirements and automated test cases.
- Collaborated with McGraw Hill and Athena Teams to debug flaky tests and enhance the reliability and performance of critical workflows.

Thomson Reuters

Technology Intern

Ahmedabad

Jan 2025 – May 2025

- Refactored and optimized structure file expressions to enhance clarity, maintainability, and performance.
- Identified and eliminated redundant PUT API calls, improving schedule load times by 200–250 ms, resulting in faster application responsiveness.
- Designed new field-to-report mappings and revised existing ones to ensure accurate and consistent data integration across structure files and reports.

PROJECTS

Ed-Tech Platform | Node.js, Express.js, MongoDB | [Link](#)

- Built a complete backend with secure authentication, course management APIs, OTP verification, payments (Razorpay), and media handling using Cloudinary.
- Designed scalable MongoDB schemas with Mongoose for instructors, students, and courses, ensuring efficient data flow across the platform.

CAViz | Node.js, Express.js, PostgreSQL | [Link](#)

- Built backend APIs for a CA MCQs platform with secure Google OAuth authentication, Razorpay payment integration, and interactive quiz/game modes.
- Designed scalable relational database schemas using Prisma ORM and PostgreSQL for user, quiz session, subscription, and question management..

Real Time Chat Application | MERN Stack, Socket.IO | [Link](#)

- Built a secure backend supporting authentication, avatar customization, and real-time messaging with Socket.IO (text + emojis).
- Developed a responsive React frontend ensuring seamless live chat and smooth user experience across devices.

ACHIEVEMENTS

Hackathon: Secured 2nd position in the Full Stack Web Development Hackathon at my college among 50+ teams.

Oracle AI certification: Certified as an Oracle Cloud Infrastructure 2025 AI Foundations Associate ([Certificate Link](#))

Problem solving: Solved over 400+ problems on various coding platforms.
