EDUCATION

Charotar University of Science & Technology

Bachelor of Technology in Information Technology (CGPA: 9.25)

Anand, Gujarat

October 2021 – Present

St. Xavier's High School

Higher Secondary Certificate (88.88%)

Kutch, Gujarat

August 2021

TECHNICAL SKILLS

Languages: C++, Java, JavaScript, TypeScript, SQL

Dev: React.js, Node.js, Express.js, REST APIs

Tools: Git, GitHub, VS Code, Postman

Database: MongoDB, Firebase, MySQL

Core Competencies: Data Structures & Algorithms, DBMS

PROJECTS

Ed-Tech Platform | *Node.js, Express.js, MongoDB* | [Link](#)

- Led the development of the backend for an edtech platform, ensuring robust API design for front-end integration and managing key functionalities such as user authentication, course management, and media storage.
- Developed **RESTful APIs** using **NodeJS** and **ExpressJS** to handle tasks like **user signup/login, OTP verification, course creation, and content management**. Integrated Razorpay for payment processing and Cloudinary for media management.
- Designed and implemented **MongoDB schemas using Mongoose, including models for students, instructors, and courses**, ensuring efficient data storage and retrieval.

Video Conferencing Platform | *React, Typescript, Firebase* | [Link](#)

- Developed a video conferencing platform using **ReactJS** and **TypeScript**, supporting a Google sign-in for user authentication and **Firebase** for backend services.
- Integrated ZEGOCLOUD API to enable real-time video conferencing with features like one-to-one and group meetings, screen sharing, and in-meeting chat.
- Implemented a responsive UI that supports seamless transitions between video conferencing, chat, and screen-sharing functionalities, enhancing user experience.

Real Time Chat Application | *MERN Stack, Socket.IO* | [Link](#)

- Developed the **backend using NodeJS, ExpressJS, and MongoDB** for secure user authentication and profile management, including avatar customization via MultiAvatar API.
- Implemented real-time messaging with **Socket.IO**, supporting both text and emoji communication, and ensured smooth, instant message exchange.
- Designed responsive **frontend using ReactJS**, providing a user-friendly interface for real-time chatting with dynamic avatar settings.

EXPERIENCE

Miracle Technolabs

Web Developer Intern cum Trainee

Jamnagar (Remote)

May 2023 – June 2023

- Completed a 1-month internship focusing on **HTML, CSS, JavaScript, React.js, & Tailwind CSS**, with hands-on API integration in real-world projects.
- Designed and developed "QUICK READ", a news website with category filters and search functionality.
- Contributed to over 10 engaging user interfaces with interactive features.

ACHIEVEMENTS

Hackathon: Secured **2nd place** in a Full Stack Web Development Hackathon among 30+ teams at university level.

Coding Contest: Ranked in the **top 25 out of 600+ participants** in 5 consecutive university coding contests.

Campus Ambassador: Promoted Coding Ninjas courses as a **campus ambassador**, leading a marketing campaign on social media.
